LeetCode Id: https://leetcode.com/SNIGDHA_7---

OBJECTIVE

Motivated and enthusiastic student seeking an opportunity to apply technical and problem-solving skills while gaining practical experience and contributing to organizational growth.

EDUCATION

BACHELOR OF TECHNOLOGY (B.Tech)-Information Technology

Bhoj Reddy Engineering College for Women

Expected Graduation: 2028

CGPA: 9.45

TECHNICAL SKILLS

Programming Languages: C, Java, Python

Web Technologies: HTML, CSS, JavaScript, Django, Node.js, Express.js

Java Technologies: Java Swing, JDBC, JSP

Database: SQL, MongoDB

Tools & Platforms: Eclipse, VS Code, Canva, GitHub

Core Concepts: Problem Solving, Basic DSA

EXPERIENCE

Web Development Intern –SkillCraft Technology (1st March-31st March)

- Developed responsive web pages using HTML, CSS, and JavaScript
- Worked on user-friendly frontend interfaces and basic UI improvements
- Gained practical experience in web development and project workflow
- Built a responsive user interface, a To-Do application, interactive Quiz application, Stopwatch application.
- Received a Letter of Recommendation and Certificate of Completion.

PROJECTS

ONLINE MARKETPLACE WEB APPLICATION (Django, HTML, CSS)

- Developed an online marketplace platform where users can post items for sale and purchase products from other users
- Implemented user authentication, item listing, and buyer-seller interaction features using Django
- Designed and managed database schemas using Django ORM
- Created responsive frontend pages using HTML and CSS
- Enabled communication between users for product inquiries and transactions

SPACE EXPLORER WEBSITE (JSP, SQL, HTML, CSS)

- Developed a dynamic space-themed web application where users can view and scroll through posts shared by other users
- Implemented user posting functionality using JSP and SQL database integration
- Designed responsive and interactive frontend pages using HTML and CSS
- Managed data storage and retrieval using SQL queries and database connectivity

CARBON LEDGER – QUANTIFYING YOUR IMPACT (Node.js, Express.js, MongoDB, HTML, CSS, JavaScript)

- Developed a web application to calculate and track users' carbon emissions
- Implemented history tracking to display users' previous carbon footprint records
- Created a contribution platform where users can post and view environmental awareness events
- Built backend functionality using Node.js and Express.js with MongoDB for data management
- Designed interactive and responsive frontend pages using HTML, CSS, and JavaScript

ROCK PAPER SCISSORS Game (HTML, CSS, Java Script)

- Player vs Computer game with result displayed based on choice
- player can choose rock, paper or scissors by clicking on respective buttons
- Computer and Player choices are displayed along with points of the player and computer and also the result is displayed.

Calculator Web App (HTML, CSS, JavaScript)

- Performs calculations with integers and decimal Numbers

ACHIEVEMENTS & CERTIFICATIONS

- BELLMAN Crown 2K25 Coding Competition - Vasavi College of Engineering
- IJINASA Poster Presentation

- Artificial Intelligence Fundamentals – IBM
- Introduction to Modern AI – CISCO
- Participation Certificate in NaukriCampus Codequest #28
- Virtual Internship in Forage Amazon Solutions Architecture Job simulation
- Virtual Internship in Deloitte Cyber job Simulation
